

ECONOMIC LINE  
(ALU/PVC)

# ECONOMIC LINE (ALU/PVC)

---

Economic door panels which combine aesthetics, high quality and current trends in modern door design. Competitive prices are also a great advantage. All the glass elements are maintained by stainless steel application. The extraordinary precision is possible to obtain thanks to applying laser treatment technology. To differentiate it from our other models we marked it with letter „A”. It is our flagship model which is most popular in Germany and France. Its main advantage is quick realisation time.
